It is good.

- 1) Use better graphics and visual media to engage students well. ...
- 2) Try to reach every student and ask for their doubts. ...
- 3) Make teaching a two way interaction

Regular clg and class

There is a lot of arrogance among the teachers. They shout when asked questions. They have outdated thinking. They take money for trivial matters. The teachers and principal are foolish, sitting in the library and gossiping. The physical trainer does not give the keys to the gym on time, and he keeps serving the teachers. They are more interested in taking unnecessary programs and roaming around. They have set up their own shops in the college. The canteen is rubbish, providing excellent service only to the teachers. There is no arrangement for water. Even without attending college, teachers' children pass with great percentages. They have superstitious thinking instead of scientific thinking. Teachers help pass exams but make students fail in life. The BA, BSc, BCom courses are all full of time waste, and both teachers and students do not follow any system in college. Even PhD teachers do not give proper answers, their books have less knowledge and more mistakes. If you just want to graduate or pass the time, then this college is perfect. If you want to pass the 12th with good marks, then this college is great. There is no teacher interaction; they only teach themselves. All the teachers are very proud for themselves and do not talk politely to the students. All the trash(avarage students)from far away ends up in this college. Programs are organized just to be featured in the newspaper for where no teacher can speak properly. They do not keep documents properly; it takes time and money to get them back.

Good

I think Doesn't need this

To help student to build their practical & logic base knowledge. And also explain the difficult theory part with simple example without complicating it which help to students easily understood.

Admission help  
Filter water  
Clin benches

- 3.always speak with students friendly.

First of all they'll not share time table of backlogs and behaviour of teachers is very rude I don't like teachers of rtmnu at all

No

Use better graphic and visual media to engage student well .2 try to reach every student and ask for their doubts.3 make teachings atwo way interaction

Kahi tr suchana nahi ahe

Zoology chemistry botany

Study v time

Very good

Teachers themselves don't know the syllabus. Students don't know the syllabus either. There are no library books. If there are books from the college's teachers, they have a lot of mistakes. In the library, teachers come and sit right next to the students and talk loudly. The principal and teachers have a bad attitude. I'm leaving..

ICT tools used ,projectors used and and multimedia used

Very good experience

- 1) give other education rather than study 2) careere counseling
- 3) guidance towards student with their aims
