Introduction of the event:

The purpose of taking a one-day virtual program is to make students and professors aware of books and literature, how to attract readers in the academic library. If students read books in the library using various materials, the knowledge of self-improvement and communication skills increases, and imagination and creativity skills can be developed. E-resources should be used from academic libraries for the flow of reading in the modern age New researchers, students should know how to use Shodhganga, Shodhgangotri, NDL (National Digital Library) PhD, to prepare summaries.

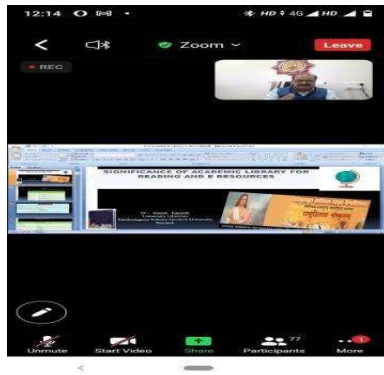

Objective of the event:

1. Students should develop interest in reading.
2. Students, professors, researchers should get information about using e-resources from the college library.
3. All round development of students should be done.

4. Reading various books and literature in the library gives peace of mind.

5. A program is taken to energize the student when he is going into depression due to modern technology.

Outcome:

1. It is a matter of concern how much the teachers and parents are aware of the reading of the students then it will definitely benefit the students.
2. Reading makes the personality of the students multi-faceted, increases knowledge, memory, improves concentration, reduces symptoms of depression and strengthens the mind by taking the support of reading. Library should be used for all round development to be strong

Any Suggestion for future Improvement:

1. The intention is to take the workshop offline in the future.
2. Students, professors, researchers and other readers can be attracted to libraries.
