

Programme Report

- **Name of Program / Event** : One Day Educational Tour At Nagpur
- **Date, Time/ Duration** : 11 March 2025
- **Venue** : Cotton Research Center, Fish Culture Center, Museum.
- **Number of Participates** : 50
- **Faculty Members** : Dr. M.S.Ambatkar, Mr. Rahul Pawar Mr. Vaibhav Kalambe
Mrs. Shetal Awghade, Miss. Pratiksha Tayade

➤ Introduction of the event:

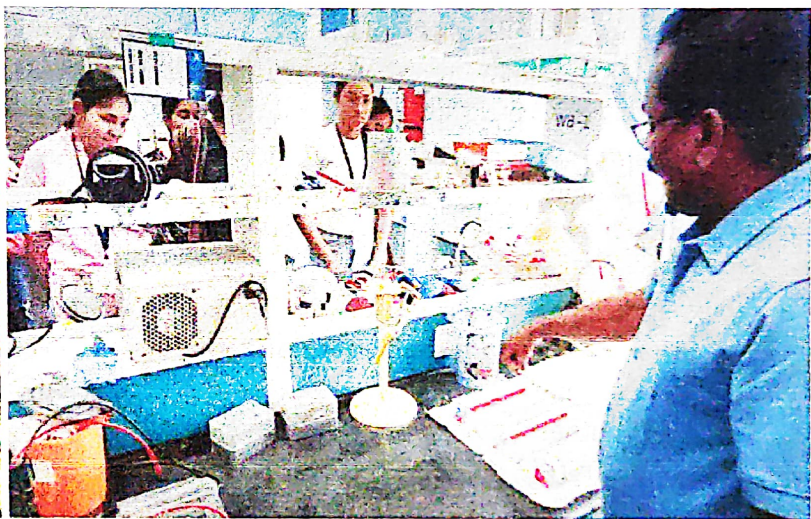

Vidya Vikas Arts, Commerce, and Science College organized a one-day educational tour to Nagpur on 11 March 2025, to provide students with practical exposure to scientific research and historical studies. The tour included visits to the Cotton Research Center, the Fish Culture Center, and a museum, offering an enriching learning experience across multiple disciplines. At the Cotton Research Center, students had the privilege of interacting with Dr. Balasubramani, a renowned scientist specializing in cotton research. He provided in-depth insights into advanced cotton cultivation techniques, pest management strategies, and the role of biotechnology in enhancing cotton yield and fiber quality. Dr. Balasubramani also demonstrated various stages of cotton production, from seed selection to fiber processing, giving students a comprehensive understanding of the industry's innovations and challenges. The visit to the Fish Culture Center allowed students to explore the principles of aquaculture, including fish breeding techniques and sustainable fish farming practices. Experts at the center explained the significance of maintaining water quality, fish nutrition, and disease management for ensuring optimal growth. Students also observed different fish species and learned about their ecological and economic importance. The final stop of the tour was a museum, where students explored historical artifacts, scientific exhibits, and cultural heritage collections. The museum visit helped them understand historical evolution, art, and science through interactive displays and expert-guided explanations, fostering a deeper appreciation for history and cultural heritage. This educational tour provided students with a multidisciplinary learning experience, bridging the gap between theoretical knowledge and real-world applications. Engaging with experts like Dr. Balasubramani and witnessing scientific advancements first hand significantly enhanced their academic understanding and career perspectives.

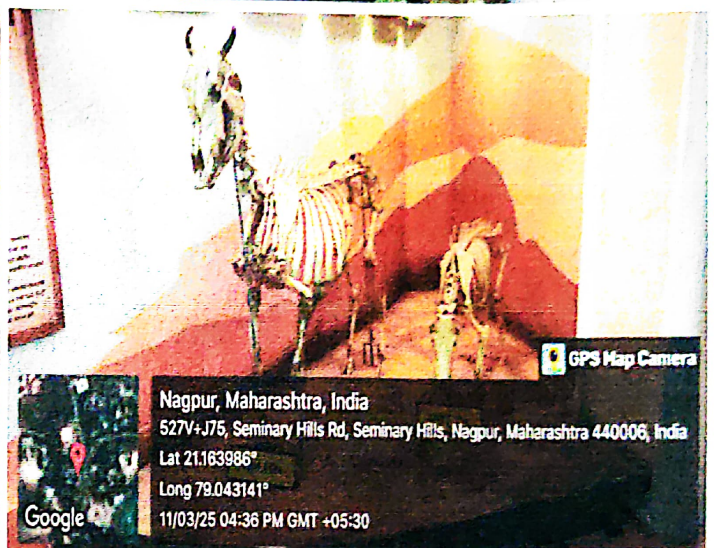

Objective of the event:

- The one-day educational tour to Nagpur, organized by Vidya Vikas Arts, Commerce, and Science College, aimed to provide students with practical exposure to various scientific and historical disciplines. The key objectives of the tour were:

1. **Enhancing Practical Knowledge:** - To complement classroom learning with real-world experiences in agriculture, aquaculture, and history. To understand advanced research techniques and innovations in cotton farming at the Cotton Research Center.
2. **Interaction with Experts:** - To engage with Dr. Balasubramani, a leading scientist at the Cotton Research Center, and gain insights into biotechnology, pest management, and cotton fiber processing. To learn from aquaculture specialists about sustainable fish farming and fish breeding techniques.
3. **Understanding Scientific Applications:** - To study the role of biotechnology and genetics in improving cotton production. To explore sustainable fisheries and their importance in food security and the economy.
4. **Exploring Historical and Cultural Knowledge:** - To visit the museum and gain a deeper understanding of historical artifacts, scientific exhibits, and cultural heritage. To encourage appreciation of history, art, and scientific discoveries through interactive exhibits.
5. **Encouraging Career Exploration:** - To expose students to various career opportunities in agriculture, aquaculture, and research fields. To inspire students to pursue higher studies or research-based careers in biotechnology, environmental science, or fisheries.

To,
The Director
CICR
Nagpur

Subject: Regarding Exposure Visit to Cotton Research Center, Nagpur

Respected Sir,

Our B.Sc. and M.Sc. students are having biotechnology as a part of the syllabus, so to understand biotechnology, we would like to visit CICR on 11 March 2025. We kindly request permission for a group of 40 students to visit your biotechnology division. This visit will provide valuable hands-on experience and enhance their understanding.

Thanking you, With best regards
Yours Sincerely

Dr. M.S. Ambatkar
