

PROGRAMME REPORT

- **Name of Program / Event :** Seminar Activity
- **Name of the Organizing Department:** Computer Science
- **Date, Venue, Time/ Duration:** 09 September 2024, Smart Class Room , at 11.15 AM
- **Number of participated student's:** 45 Students.

- **Objective of the Activity:**

To expose students to real-world applications and current innovations in the field of computer science, thereby helping them understand the relevance of their academic curriculum in the technological world and prepare for future career prospects.

- **Brief Description of the Activity:**

A seminar was conducted for the B.Sc. Computer Science students of all three years, focusing on the latest advancements in computing technology. The session included expert talks, practical demonstrations, and student interaction on various topics like AI, cybersecurity, and Quantum Computing. Students actively participated, asked questions, and discussed future career options.

- **Outcome of the Activity:**

1. Students gained insights into modern and emerging computer technologies.
2. They were able to relate theoretical knowledge with real-world applications.
3. The session encouraged critical thinking and innovation.
4. Students showed increased interest in pursuing advanced certifications and projects.
5. Improved awareness of current industry trends and career opportunities.
