Introduction of the event:

On 20th December 2022, Vidya Vikas College Samudrapur had the privilege of hosting a guest lecture by Dr. Vengadaesvaran Balakrishnan in the Auditorium Hall. The topic of the guest lecture was "SMART SELF-CLEANING GLASS COATING FOR P V PANEL APPLICATIONS." Dr. Vengadaesvaran Balakrishnan started the lecture by introducing himself. He shared about his academic qualifications and research experience. He explained about the need for smart self-cleaning glass coatings for photovoltaic (PV) panel applications. He discussed about the various types of glass coatings that are available and how they can be used to enhance the efficiency of the solar panel. He also discussed about the various research activities that have been conducted in this field. He further discussed about the challenges that are faced in developing these coatings and the various techniques and methods that can be used to improve the properties of these coatings. He also explained the importance of proper installation and maintenance of the PV panel. He also discussed the various safety considerations that need to be taken while installing these panels. At the end of the lecture, Dr. Vengadaesvaran Balakrishnan gave an overview of the future trends in this field and the potential applications of these coatings. He also answered the queries of the students and faculty members. The guest lecture was a great success and it helped the students and faculty members to understand the importance of research and the potential applications of smart self-cleaning glass coatings.

Objective of the event:

1. Introduce students to the research topic and its importance.
2. Provide students with an overview of the current state of research in the area.
3. Discuss key research findings and their implications.
4. Explain research methodology and techniques used in the area.
5. Give students an opportunity to network with a professional in the field.
