1. The institution assesses the learning levels of the students, after admission and organizes special program for slow and advance learners:

In order to assess the learning levels of the students, the faculties start their work with the beginning of the admission process. Whenever students face any difficulty (like selecting a proper subject) our teachers help them with proper counselling. Once the admission process is completed, the assessment of slow learners and advanced learners was done on the basis of the first unit test. This process of assessment was adopted for the Semester I. From the second semester onwards, the institute assesses the learning levels of students based on the result in university examination.

Strategies adopted for Slow Learners:

Once the identification of slow learners are done, the subject teacher makes a list of them. Then arranges extra/remedial classes for them. In those classes, the concerned teacher not only clears their doubts but also reteaches some difficult topics of the syllabus.

Strategies adopted for Advanced Learners:

With a viewpoint to boost up advanced learners, the institute takes up some initiatives like offering roles of leadership in several programs, participation in the events organised within or outside of the institute, organize workshops, seminars, guest lectures and communication skills improvement programs throughout the session. The teachers also suggest the students to prepare for examinations like UPSC, MPSC, NET, SET, etc. Various motivational speeches are organized for their future development. The teachers also motivate students to read various books and acquire a higher knowledge.

Notice

This is to inform all the students of B.Sc. IInd Year that the department of chemistry is providing special coaching classes for slow learner. We understand that due to various reasons, some of you are lagging behind in your studies and are unable to cope with the syllabus. To help you overcome this hurdle and upgrade your academic performance, we offer you classes to focus on the topics that need extra attention and help.

The classes will be conducted twice a week and will be conducted under the supervision of Mrs. Shital Awaghade, Assistant Professor, Dept. of Chemistry. All the students who are interested in enrolling in these classes are requested to contact the department in person.

We look forward to your participation in these classes and wish you all the best.

Sincerely,
Department of Chemistry
Vidya Vikas College, Samudrapur

Date – 10th October 2023.
